CAKE Invasive Species COST SHARE Treatment Contract
Page 2 of 2 - Agreement

Property Owner agrees to:

1. Fulfill payment obligations once treatment of specified invasive species is completed.
2. Authorize CAKE or its hired contractor to enter or cross the private property at times agreeable to the Property Owner for treatment of targeted invasive species.
3. Agree to receive the customer information via email provided on page 1 of this document (see Regulation 637, Rule 12 or contact CAKE CISMA coordinator for more information)
4. Provide guidance or assistance as needed to CAKE in regard to identifying property boundaries and identifying infestation locations.
5. Grant permission for CAKE to access property with notification for 5 years, unless formally revoked, either orally or in writing. Permission is also granted for project monitoring by CAKE. Treatment each year will require a new cost estimate and require approval by initialing a new estimate.

Hired Contractor:

CAKE agrees to:

1. Conduct treatment of targeted invasive species using best management practices. These may include mechanical and chemical methods. Herbicide treatment will be handled by trained individuals.
2. Hold Property Owners harmless for all claims, suits or actions whatsoever resulting from this cooperative agreement and to absolve Property Owners from all liabilities related to actions conducted by CAKE.

This agreement shall be effective upon the signature of all the parties listed below.

Signatures: Based on the estimate provided on the reverse side (Page 1), CAKE agrees to provide Invasive Species treatment and Property Owner agrees to the above terms.
