Soil Erosion and Sedimentation Control Plan: Site Plan

Required by law (DEQ rule R323.1703 and Antrim County Soil Erosion and Sediment Control ordinance: Section 6-200)

All these items must be addressed when presenting Soil Erosion Control Plan before application can be accepted or permit issued. As you address a specific requirement CHECK the item.

(If item is truly not applicable, note: N/A)

	Site p	plan – drawn to scale @ not more th	an 200' to the i	nch, or actual dimensions
	label	led (use a site survey if available)		
	0	North arrow		
	0	Locate temporary soil erosion control me	asures (silt fence,	diversion, detention basins etc.)
	0	Existing/proposed buildings		
	0	Distance earth change is from surface wa	ter (river, lake, str	eam, wetland)
	0	Dimensions of proposed earth change (no	t limited to the size	ze of the structure being built)
	0	Driveway/well/septic locations		
	0	Predominant land features (for example:	topographic chang	ge, wetland, dune etc.)
	0	Distance to property lines		
	0	Stockpile location		
	0	Slope and contour information: note it or	n the site plan	
	 Drainage/Dewatering Detail (perimeter tile, actual site dewatering: how and where) 			atering: how and where)
	0	Location of storm water controls		
	Cost o	of erosion control measures		(estimate)
can b	oe issued	sion officer has 30 days to review the presented d between 5-10 business days. If work begins w ne of application.		·
The project must be staked before the soil erosion officer can inspect the proposed earth change activities and issue				
the s	oil erosi	ion control permit. All earth change activities m	ust be presented.	
	_	s to the proposed earth change activities made to sented to and approved by the soil erosion cont		
	_		rol officer before th
