**Make checks payable to:
Antrim County Soil Erosion (ACSE)**

Soil Erosion Control Program

New application June 1, 2022

Fee schedule

Area of Earth Change	Fee
0-1000 sqft	\$75
1001-5,000 sqft	\$150
5,001-10,000 sqft	\$225
10,001-20,000 sqft	\$350
20,001-43,560 sqft	\$450
each additional acre	\$100
Utilities installation	
Up to ½ mile	\$215
Each additional mile	\$130

1. Property Owner – Mailing Address

Name: _____ Phone #: _____

Mailing Address: _____ City: _____ State: _____

Zip Code: _____ email: _____

2. Applicant or Designated Agent – Mailing Address (if different from property owner)

Name: _____ Phone #: _____ Cell #: _____

Mailing Address: _____ City: _____ State: _____

Zip Code: _____ email: _____

3. Project Location

Address: _____ City: _____ Zip Code: _____

Property Tax ID: _____ Township: _____ Section: _____

Directions to the site: _____

4. Project type: Residential Commercial Shoreline Gravel/Peat/clay/sand/topsoil Pit Agriculture

5. Description of Earth Change: footings, roadwork, basement, septic system, shoreline stabilization, landscaping, etc.

Square footage of total earth change: _____ **Distance to surface water:** _____

I (we) affirm the information presented in this application is accurate and I (we) will conduct the above described earth change in accordance with Part 91, Soil Erosion and Sedimentation Control, of the Natural Resource and Environmental Protection Act 1994 PA 451, as amended, applicable local ordinances, and the documents accompanying this application.

Soil Erosion and Sedimentation Control Plan

As required by law: R323.1703

A. Expected Project Start Date: _____ Expected End Date: _____

B. Timing and sequence of each proposed earth change: when control measures will be installed, begin digging, back fill, final grade, final stabilization (landscaping), and when control measures will be removed.

Month/Year	Jan 20_	Feb 20_	Mar 20_	Apr 20_	May 20_	Jun 20_	Jul 20_	Aug 20_	Sep 20_	Oct 20_	Nov 20_	Dec 20_
Dig Start												
Control Measures in												
Backfill												
Final Grade												
Final Stabilization												
Temp. Control Measures out												

C. Individual responsible for onsite erosion control during construction:

Name: _____ Contact #: _____
 Email: _____

D. Detailed Permanent Final Stabilization/Landscaping Plan:

a. What will be done to stabilize the site:

- Topsoil, perennial seed, mulch
- Perennial seed, straw mulch
- Perennial seed, straw mulch blanket
- Landscaping
- Other: _____

b. Who will be doing final stabilization/landscaping:

- Builder
- Excavator
- Landscaper
- Homeowner

c. Name: _____ Contact #: _____
 Email: _____

d. When is the landscaping expected to be done: _____

Number: _____

Estimated Cost of Soil Erosion Control

\$ _____

The soil erosion officer has 30 days to review the presented application, but typically the soil erosion control permit can be issued between 5-10 business days. If work begins without benefit of permit, there will be an additional \$75 charge at time of application.

The project must be staked before the soil erosion officer can inspect the proposed earth change activities and issue the soil erosion control permit. All earth change activities must be presented.

Any changes to the proposed earth change activities made to the project after submission of the permit application must be presented to and approved by the soil erosion control officer before the changes have started.
